(“Descriptions”). Vertiv does not control the installation and use of any Equipment. Accordingly, it is understood that the Descriptions are not warranties of performance and are not warranties of fitness for a particular purpose. Subject to the limitations specified herein, if any part or portion of the Equipment fails to conform to the Extended Warranty within the Extended Warranty Period, Vertiv, at its option, will replace or repair the failed Equipment or part thereof in accordance with the Warranty Claim Procedure. This Extended Warranty does not apply in any event if the Liebert serial number has been altered, defaced, or removed. This Extended Warranty is void if the battery is allowed to discharge below the minimum battery voltage cutoff point. To prevent such discharge do not leave the Equipment power switch ON for more than 2 days without AC power being supplied to the Equipment.

This Extended Warranty does not cover battery autonomy reduction. Battery autonomy reduction is affected by environmental working conditions (such as temperature and humidity), by battery’s age and number of power failures and will not be cause for Vertiv to replace the relevant Equipment or part thereof.
